
SPECIAL EDUCATION

Prescott Unified School District #1 provides special education programs for children with disabilities between the ages of 3 and 21 years. The District also provides transition planning and services to assist children with disabilities entering the world of work or college.

Early identification of children with physical, intellectual or emotional problems is the first step. Help is needed from the community to locate these children who are not in school or not receiving services. The District can then provide appropriate screening, diagnosis and treatment.

If you know of a child with disabilities who may need services ages 5-21, please contact Kat Knudsen, the ESS Records Clerk, at (928) 445-5400 Ex 70132. Preschool students, age 2 years 10 months-5 years, contact Stacy Williams at Discovery Gardens (928)442-1283 Ex 79143, Stacy.Williams@prescottschools.com.
